HR-V

TRENDSFORM

Don't just follow the trend. Transform it. We were told the SUV is supposed to be big. We made it small. It's supposed to be useful not fun. We managed both. It's supposed to be bulky. We built it nimble. With it's versatile, sporty, and of course, stunning demeanor, the HR-V is ready to TRENDSFORM the way you view an SUV into something fun and exciting.

SMART ENTRY

Hop in the HR-V without ever taking your keys out of your pocket. Smart Entry recognizes when your key is near the vehicle, and locks or unlocks the doors.

INTEGRATED TURN INDICATORS

Turn indicators on the side mirrors improve your visibility in high traffic areas.

FOG LIGHTS

The HR-V features fog lights on EX models that aren't just functional, they also look great and help you see when visibility dims.

TOUCH AND GO

The HR-V is equipped with an audio touch-screen interface on EX models.¹ Tap and swipe to access the numerous features, and pair with your compatible smartphone to answer calls with Bluetooth Hands Free Link.²

AUTOMATIC CLIMATE CONTROL WITH ELECTROSTATIC TOUCH-SCREEN

Keep the temperature in check with an intuitive, touch-based climate control system on EX models.

BLUETOOTH HANDS FREE LINK

Every HR-V features Bluetooth Hands Free Link so you can talk on your Bluetooth enabled mobile phone without taking your eyes off the road.¹

STEERING WHEEL MOUNTED CONTROLS

Whether you want to change the music, answer a phone call or set the cruise control, you can do all that and a whole lot more without ever taking your hands off the wheel.

MULTI-FUNCTIONAL CENTER CONSOLE

The unique center console efficiently organizes and includes a power outlet and USB ports.

TALL MODE

Maximize your cargo space with minimum effort. Fold up the Magic Seat up and enjoy nearly 1.2 meters of height.³

LONG MODE

Fold down the front and rear passenger-side seats to transport cargo up to 2.4 meters in length.³

UTILITY MODE

Fold down the 2nd-row Magic Seat for 1665 liters of cargo space.³

Admire the beauty of the world starting from the inside. Play with the smart touch points, feel cool airflow from the triple air vent design, and get comfortable with the expansive interior. Whatever your point of view is, you're guaranteed inspiring vistas with your HR-V.

HR-V shown in: Black Leather

A unique and dynamic appearance along with a solid stance and coupe-like cabin shape give the HR-V a bold look. Whichever way you look at it, the HR-V is a luxuriously sporty piece of machinery.

PUSH BUTTON START

The HR-V can identify when your key is inside the vehicle, so all you need to do is press the button.

PADDLE SHIFTERS

Race-inspired paddle shifters give you more control and make your drive that much more fun on EX models.

ELECTRONIC PARKING BRAKE

Step on the gas and the electronic parking brake disengages automatically if you forget to do so manually. With auto brake hold, you don't have to keep your foot on the pedal when stopped.

ELECTRONIC BRAKE DISTRIBUTION (EBD)

EBD distributes brake force among the four wheels based on how much load each wheel is bearing.

ANTI-LOCK BRAKES (ABS)

ABS uses a special modular to pulse the brakes to help prevent wheel lockup and help you retain steering control when braking hard.

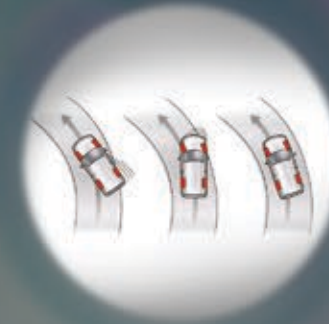

BRAKE ASSIST

In the event of abrupt or emergency braking, Brake Assist helps you bring your HR-V to a stop sooner.

HILL START ASSIST (HSA)

Stopped on a steep hill? No worries. When your foot moves from the brake pedal to the accelerator, Hill Start Assist will maintain brake-line pressure, giving you time to step on the accelerator and resume motion without rolling back.

VEHICLE STABILITY ASSIST (VSA)

During an understeer or oversteer condition, VSA can brake individual wheels and/or reduce engine power to help restore your intended course.⁶

REARVIEW CAMERA

The HR-V EX model features a multi-angle rearview camera that offers wide view and top view as well, to help see more of what's behind you when you're in reverse.⁵

ACE BODY STRUCTURE (ACE)

The next-generation Advanced Compatibility Engineering (ACE) body structure is a Honda exclusive design that utilizes a network of connected structural elements to distribute frontal crash energy more evenly.

AIRBAGS

The HR-V is equipped with front airbags. The EX trim adds front side airbags and side-curtain airbags.⁴

¹Drive responsibly. Some laws prohibit the operation of handheld electronic devices while operating a vehicle. For safety reasons, always launch your audio application or perform any other operation on your phone or audio device only when the vehicle is safely parked. ²The Hands Free Link interface is only compatible with phones equipped with Bluetooth and hands-free capability. For information on phone makes and models compatible with this system, see your Honda dealer. ³Carrying too much cargo or improperly storing it can affect the handling, stability and operation of this vehicle. Follow applicable load limits and loading guidelines. ⁴Honda reminds you and your passengers to always buckle up. Children 12 and under are safest when properly restrained in the rear seat. Always use seat belts and appropriate child seats. ⁵Always visually confirm that it is safe to drive before backing up; the rearview camera display does not provide complete information about all conditions and objects at the rear of your vehicle. ⁶VSA is not a substitute for safe driving. It cannot correct the vehicle's course in every situation or compensate for reckless driving. Control of the vehicle always remains with the driver.
