

**HONDA**

***Accord***

**PROJECTOR BEAM HALOGEN  
HEADLIGHTS & LED FOG LIGHTS**

When you have limited visibility, the functional halogen headlights & LED fog lights help you see and be seen.

**RAIN-SENSING WINDSHIELD WIPERS**

The windshield wipers automatically adjust their rate according to the rainfall, giving you one less thing to worry about in bad weather (V6 models).

**BOLDLY  
GO.**

How do you improve a car that's an automotive icon? You take all the technology, performance and innovative thinking that made it a legend and add a healthy dose of style and great new thinking. It's more than a car: it's a legacy, and the redesigned 2016 Accord is the latest evolution.

#### REMOTE ENGINE START

Make sure your Accord is ready by the time you get there with the remote engine start, to pre-heat or cool your vehicle, available on V6 models.

#### SMART ENTRY

On the V6 models, the Smart Entry detects when your key is near the vehicle, unlocking your door automatically with the touch of your hand.

#### PUSH BUTTON START

Bring your engine to life with the touch of a button on the V6 models.

#### ONE-TOUCH POWER MOONROOF

The moonroof features a tilt setting and a convenient one-touch control to open and close. The sliding sunshade keeps you cool when you've had enough sun.

# LUXURIOUSLY APPOINTED.

If it's what's on the inside that counts, consider the refined styling, updated accents and intelligent features in the Accord. The spacious cabin and wealth of technology invite you to step inside and make the car your own.

# INSPIRED TECHNOLOGY.

## AUDIO TOUCH SCREEN

This amazing touch panel gives you access to your audio system's controls, equalizer, USB Audio Interface<sup>1</sup> and Bluetooth Hands Free Link,<sup>2</sup> and can also be operated by steering wheel-mounted controls.

## STEERING WHEEL-MOUNTED CONTROLS<sup>3</sup>

Change the music or answer a phone call with your hands on the wheel.

## DUAL-ZONE AUTOMATIC CLIMATE CONTROL

Both driver and front passenger can enjoy customizable temperature settings.

**STYLE IN  
MOTION.**

#### **Honda LANEWATCH<sup>4</sup>**

Help improve your view with Honda LaneWatch. A small camera under the passenger-side mirror displays live video on the i-MID screen to help you change lanes.

Accord shown in: White Orchid Pearl

## **POWER AND GRACE.**

The Accord proves that excitement and efficiency can coexist. Its tight, responsive handling is complemented by a 153-hp, 4-cylinder engine or an available 276-hp V-6.

# PROTECT PRECIOUS CARGO.

Accord shown in: Aegean Blue Metallic

## VEHICLE STABILITY ASSIST (VSA) WITH TRACTION CONTROL<sup>5</sup>

VSA helps you stay on course in the event of an understeer or oversteer condition by braking individual wheels and/or reducing engine power to help restore your intended course.

## SMARTER AIRBAGS<sup>6</sup>

Inside every Accord are front, front side and side curtain airbags. The SmartVent front side airbags are designed specifically to help protect the driver's or front passenger's upper torso in the event of a side-impact collision.

## ACE BODY STRUCTURE

By distributing frontal impact energy more evenly throughout the vehicle, the Advanced Compatibility Engineering body structure helps protect passengers.

## MULTI-ANGLE REARVIEW CAMERA<sup>7</sup>

See more of what's behind you with the multi-angle rearview camera with dynamic guidelines, standard on every Accord.

## PARKING SENSORS

Help keep your bumpers ding-free with sensors that beep as you approach detected objects.

## EXPLORE

<sup>1</sup> The USB audio interface is used to connect directly to and control today's digital audio players and other USB devices that store music files in MP3, WMA or AAC formats. Some USB devices with security software and rights-protected digital files may not work. See your Honda dealer for further details. <sup>2</sup> The Hands Free Link interface is only compatible with phones equipped with Bluetooth and hands-free capability. For information on phone makes and models compatible with this system, see your Honda dealer. <sup>3</sup> Drive responsibly. Some laws prohibit the operation of handheld electronic devices while operating a vehicle. For safety reasons, always launch your audio application or perform any other operation on your phone or audio device only when the vehicle is safely parked. <sup>4</sup> Display accuracy will vary based on weather, size of object and speed, and the display may not show all relevant traffic. The display is not a substitute for your own direct visual assessment of traffic conditions before changing lanes. <sup>5</sup> VSA is not a substitute for safe driving. It cannot correct the vehicle's course in every situation or compensate for reckless driving. Control of the vehicle always remains with the driver. <sup>6</sup> **Honda reminds you and your passengers to always buckle up. Children 12 and under are safest when properly restrained in the rear seat. Always use seat belts and appropriate child seats.** <sup>7</sup> Always visually confirm that it is safe to drive before backing up; the rearview camera display does not provide complete information about all conditions and objects at the rear of your vehicle.
