

# LOOKS LIKE FUN

The Fit has been completely redesigned and it's ready for action. It has a slick, new body design and a wider stance. And it all helps give the Fit a look that, for a compact car, is pretty tough.

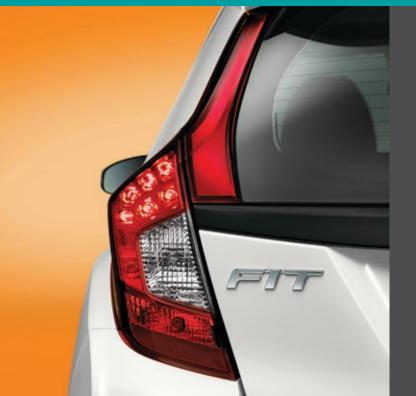

Parking in cramped quarters? The side mirrors conveniently fold inward, giving you a few extra centimeters. On the Fit Sport, the side mirrors with integrated turn signals allow your fellow motorists to better anticipate your next move.

## **SMART ENTRY**

Keep your keys in your pocket or purse. The Smart Entry feature on the Fit Sport detects when your key fob is near the front doors. Just push the small buttor on the door handle to lock your Fit, and to unlock it, just give a little tug on the handle.

### HEADLIGHT AND GRIL

Unique styling and accents are everywhere you look on the Fit, starting right up front. The lines and angles of the grill and headlights are subtle details that give the Fit a lot of personality.

### LED BRAKE LIGHTS

The Fit has unique design touches everywhere you look, like the stylized LED brake lights.

### **ALLOY WHEELS**

Beautifully designed 16-inch alloy wheels on the Fit Sport let everyone know the Fit isn't messing around.

### FOG LIGHT

Functional and part awesome and they come on the Fit Sport.

# ULTRA-VERSATILE

The Fit is ultra-versatile with features that drivers love. Whether you are carrying passengers, cargo or both, the Fit has four unique configuration modes so you can get just about anyone or anything whenever you need it to go.

### UTILITY MODE

Fold the Magic Seat down and you've go 1492 liters of cargo space. It's amazing what fits in there

### TALL MODE

Sometimes you need a little extra cargo height. Folding up the Magic Seat gives you nearly 1.2 meters of room, top to bottom.<sup>1</sup>

### **REFRESH MODE**

Turn your Fit into a mobile relaxation space. Take off the front head restraints, fold back the front seats and let the chill time begin.<sup>1</sup>

## LONG MODE

If you fold down the left side of the rear seat and fold back the front passenger seat, you can haul gear up to 2.3 meters in length.

# SUPERB INTERIOR

The Fit's redesigned interior is our smartest and most spacious yet. Along with countless interior amenities, improved visibility also helps you get comfortable behind the wheel.

#### USH BUTTON START

Keep your key fob in your pocket or your purse, because you can start the engine with the push of a button on the Fit Sport.

Connect your compatible smartphone, MP3 player or flash drive via USB, and you can play music and charge your devices.<sup>2</sup>

### **MULTI-INFORMATION DISPLAY**

Real-time fuel consumption, trip info and more in the Multi-Information Display just next to the speedometer.

ENGINE START STOP

#### RUIETOOTH HANDS EDEE LINK

Every Fit features Bluetooth Hands Free Link<sup>3</sup> so you can talk on your Bluetooth enabled mobile phone without taking your eyes off the road.<sup>4</sup>

# AMAZING PERFORMANCE

And of course, we made sure the Fit is a lot of fun to drive. It has a more nimble chassis, a wider stance, and ingenious Earth Dreams Technology to give you plenty of zip and help you go longer between fill-ups.<sup>5</sup>

### EARTH DREAMS CVT

The continuously variable transmission (CVT) allows the engine to operate at optimal RPM levels and helps maximize efficiency.<sup>5</sup>

Honda Fit Sport shown in: Milano Red

# AIRBAGS\* (SRS)

Standard frontal airbags are designed to supplement the seat belts to help reduce the likelihood of head and upper body injuries in frontal crashes. The Fit Sport adds front side and side curtain airbags which help provide protection for both the front and outboard rear occupants on the side of impact.<sup>6</sup>

\* Airbags inflated for display purposes.

### **ACE BODY STRUCTURE**

The next-generation Advanced Compatibility Engineering (ACE) body structure is a Honda exclusive design that utilizes a network of connected structural elements to distribute frontal crash energy more evenly throughout th front of the vehicle. This helps reduce the force transferred to the cabin and evenly disperse the forces transferred to other vehicles involved.

## **VEHICLE STABILITY ASSIST (VSA)**

During an understeer or oversteer condition, VSA<sup>7</sup> brake individual wheels and/or reduce engine power to help restore your intended course

### PADDLE SHIFTER

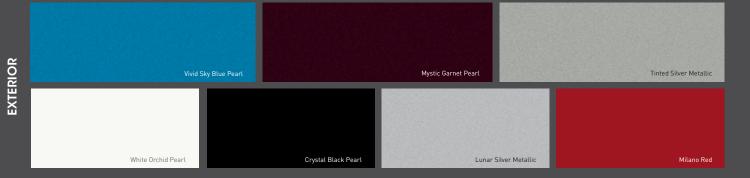

Race-inspired paddle shifters give you more control and make your drive that much more fun on the Fit Sport.

### g-shift design

G-Shift works with the continuously variable transmission (CVT) and delivers power to your Fit's wheels more efficiently than ever. This means less energy spent revving and more spent accelerating.
